

* Alma Clean-Up

What you need to know - but don't really want to think about.

*The Vanguards (UGA, Georgia Southern, and Valdosta State University) all had a deadline of February 17 to get pre-migration clean-up done before the first records were loaded into the Alma test database.

We had a strange bunch of barcodes come over in the migration. These items will need to be looked at and given the correct barcode number.

*Some barcodes were easy to figure out. Our barcodes start with the same six numbers

321080

So, if a barcode did not start out that way, it was easy to figure out if a number was missing or transposed.

* Location mismatches

- * UGA had about 12,500 records where the mfhd location and the permanent location in the item record did not match. We had just about everyone in the Cataloging Department working on this project to meet the February 17 deadline. Unfortunately, all of this clean-up had to be done manually. The spreadsheets contained monographs and serials, in addition to other formats.

* Location Mismatches

- * The mismatches were split into four categories:
 - * Miscellaneous
 - * Permanent Location Main/Science Stacks
 - * On Order for Stacks
 - * 5 Repo

5 Repo (5552 records)

5 Repo was the largest category of location mismatches. Many of these items had a 5Repo location in the permanent location on the item record, but the mfhd location was a stacks location.

* So what happened when we “fixed” these 5Repo records and loaded them into Alma?

The screenshot shows a web browser window displaying search results from 'risgroup.com'. The browser's address bar shows a URL with parameters like 'xmlFileName=resource_editor.physical.items_list.xml'. The page lists several records, each with details like title, author, ISBN, subject, language, and availability. A red circle highlights the record for 'The Dynamism of Biblical tradition' by Benoit, Pierre, and a large red arrow points to it from the right. Other records include 'Asian regionalism in the world economy engine for dynamism and stability', 'In quest of human dynamism', 'Management dynamism', 'Dynamism in Islamic activism', 'Chavín: Peru's enigmatic temple in the Andes', and 'Mass flourishing: how grassroots innovation created jobs, challenge, and change'.

Reconstructing conflict : integrating war and post-war geographies / edited by Scott Kirsch and Colin Flint.

- *The Alma display lists two locations - the permanent location (that matches the holdings) and the temporary location - however only one of the locations actually has an inventory. This item was temporarily moved to the repository and that is what the inventory is connected to.
- *In Primo, the display is much clearer to the patron.
