

Are You Open to Athens? If So,  
ALMA Going to Show You  
Something.

GUGM Webinar 2020

# Setting up Resources with OpenAthens

- **Questions to ask before setting up authentication:**
  - Is the resource available on a platform that has already been set up with OpenAthens?
  - Is the resource/vendor in the OpenAthens federation or does it need to be proxied through OpenAthens' proxy service?
- **The most powerful item in answering these questions is the vendor provided access URL.**

# Setting up Resources with OpenAthens

- **Collections on the Same Platform**

- Pittsburgh Courier (1911-2002)

<https://search.proquest.com/hnppittsburghcourier?accountid=13439>

- ProQuest Civil War Era

<https://search.proquest.com/civilwar?accountid=13439>

- **Collections on a Different Platform (from the same vendor)**

- Oxford Academic Journals <https://academic.oup.com>

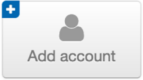

- Oxford University Press <http://www.oxfordreference.com>

# OpenAthens Administration

<https://admin.openathens.net/>

The screenshot shows the OpenAthens management interface. At the top, there's a dark header with the OpenAthens logo, a search bar, and navigation icons. Below the header, a menu bar contains 'Accounts', 'Resources', 'Statistics', 'Preferences', and 'Management'. The 'Resources' menu is open, showing 'Catalogue', 'Permission sets', and 'Redirector link generator' (highlighted in blue). On the left sidebar, there are buttons for 'Add account', 'Accounts' (with a count of 14), 'Resources' (with a count of 94), 'Security', 'Downloads', and 'Organisations'. Below these is a section for 'Most popular resources for the last seven days' with a list of resources and their counts: EBSCO Information Services (3739), Elsevier (1021), EBookCentral (506), ITHAKA (432), and GALILEO Portal (264). The main content area shows a 'Summary for the previous thirty days' with three boxes: 'Accounts' (0 up, 0 down), 'Users joined/left' (0 up, 0 down), and 'User logins' (23). Below this is a 'Recent activity for this organisation' section with a list of activities: 'Georgia Southern New IdP (Solves EDS Guest Access Issue) added mv04396' (12 minutes ago), 'Georgia Southern New IdP (Solves EDS Guest Access Issue) added sm33291' (Today at 18:04), 'Georgia Southern New IdP (Solves EDS Guest Access Issue) added ag21245' (Today at 17:01), 'Georgia Southern New IdP (Solves EDS Guest Access Issue) added ab44108' (Today at 16:48), 'Georgia Southern New IdP (Solves EDS Guest Access Issue) added rp12409' (Today at 16:33), 'Georgia Southern New IdP (Solves EDS Guest Access Issue) added rj03332' (Today at 16:17), and 'Georgia Southern New IdP (Solves EDS Guest Access Issue) added md21028'.

# Redirector Link Generator

- Generates OpenAthens URLs for resources
- Bulk operations for updating multiple URLs
- Tool to find resources in the OpenAthens catalog

The screenshot shows the OpenAthens web interface. The top navigation bar includes the OpenAthens logo, an account search bar, and a user profile icon. Below this, a sidebar menu lists various sections: Accounts, Resources, Statistics, Preferences, and Management. The 'Resources' section is expanded, showing a dropdown menu with options: Catalogue, Permission sets, and Redirector link generator. The 'Redirector link generator' option is selected, opening a modal window.

The modal window is titled 'Redirector link generator'. It contains the following elements:

- A text box explaining that Redirector URLs can be created by adding a prefix to the target URL, with an example: `https://go.openathens.net/redirector/georgiasouthern.edu?url=`.
- A text input field containing the URL `https://academic.oup.com`.
- A button labeled 'Generate link'.
- A text input field showing the generated URL: `https://go.openathens.net/redirector/georgiasouthern.edu?url=https%3A%2F%2Facademic.oup.com`, followed by a 'Test' button.
- A section titled 'Resource' with the text 'Oxford Academic'.
- A section titled 'Generate multiple redirector URLs' with a 'Browse...' button and the text 'No file selected.'.
- A note stating 'Files must be .csv or .txt'.
- At the bottom, there are 'Submit' and 'Close' buttons, along with a help icon.

OpenAthens Admin  
Resource Search

The screenshot shows the OpenAthens web interface. The top navigation bar includes the OpenAthens logo, an account search bar, and a user menu. The main navigation menu has options for Accounts, Resources, Statistics, Preferences, and Management. A dropdown menu for 'Resources' is open, showing 'Catalogue', 'Permission sets', and 'Redirector link generator'. The 'Redirector link generator' tool is displayed as a modal window. It contains the following elements:

- Header:** 'Redirector link generator' with a close button.
- Instructions:** A text box explaining that Redirector URLs can be created by adding a prefix to the target URL, with an example: `https://go.openathens.net/redirector/georgiasouthern.edu?url=`.
- Input Field:** A text box containing the URL `https://academic.oup.com`.
- Generate Link Button:** A button labeled 'Generate link'.
- Output:** A text box showing the generated URL: `https://go.openathens.net/redirector/georgiasouthern.edu?url=https%3A%2F%2Facademic.oup.com`, followed by a 'Test' button.
- Resource:** A text box labeled 'Resource' containing the text 'Oxford Academic'.
- Generate multiple redirector URLs:** A section with a 'Browse...' button and the text 'No file selected.' and 'Files must be .csv or .txt'.
- Footer:** 'Submit' and 'Close' buttons, along with a help icon.

The background of the interface shows a sidebar with 'Most popular resources for the last seven days' and a list of resources with their counts: EBSCO Information Services (3739), Elsevier (1021), EBookCentral (506), ITHAKA (432), and GALILEO Portal (264).

# Redirector Link Generator

# Redirector Link Generator Error

**Redirector link generator** ✕

 Redirector URLs can be created by adding `https://go.openathens.net/redirector/georgiasouthern.edu?url=` as a prefix to the target URL, or using the tool below.

OpenAthens does not support deep-linking for this target URL.

---

Generate multiple redirector URLs

No file selected.

Files must be .csv or .txt

## Reasons for Error

- The resource hasn't been set up in OA and will need to be proxied through OA proxy service.
- The URL is a legacy URL and is no longer supported by the vendor.

# OpenAthens Proxy Service

- OpenAthens offers a proxy service, which is much like EZproxy
- Users are authenticated via proxy IP registered with the vendor
- OpenAthens maintains the configuration for each resource
- Doesn't allow personalization with vendors
- Uses the OpenAthens Redirector URL, like federated authentication

# OpenAthens Federated Access

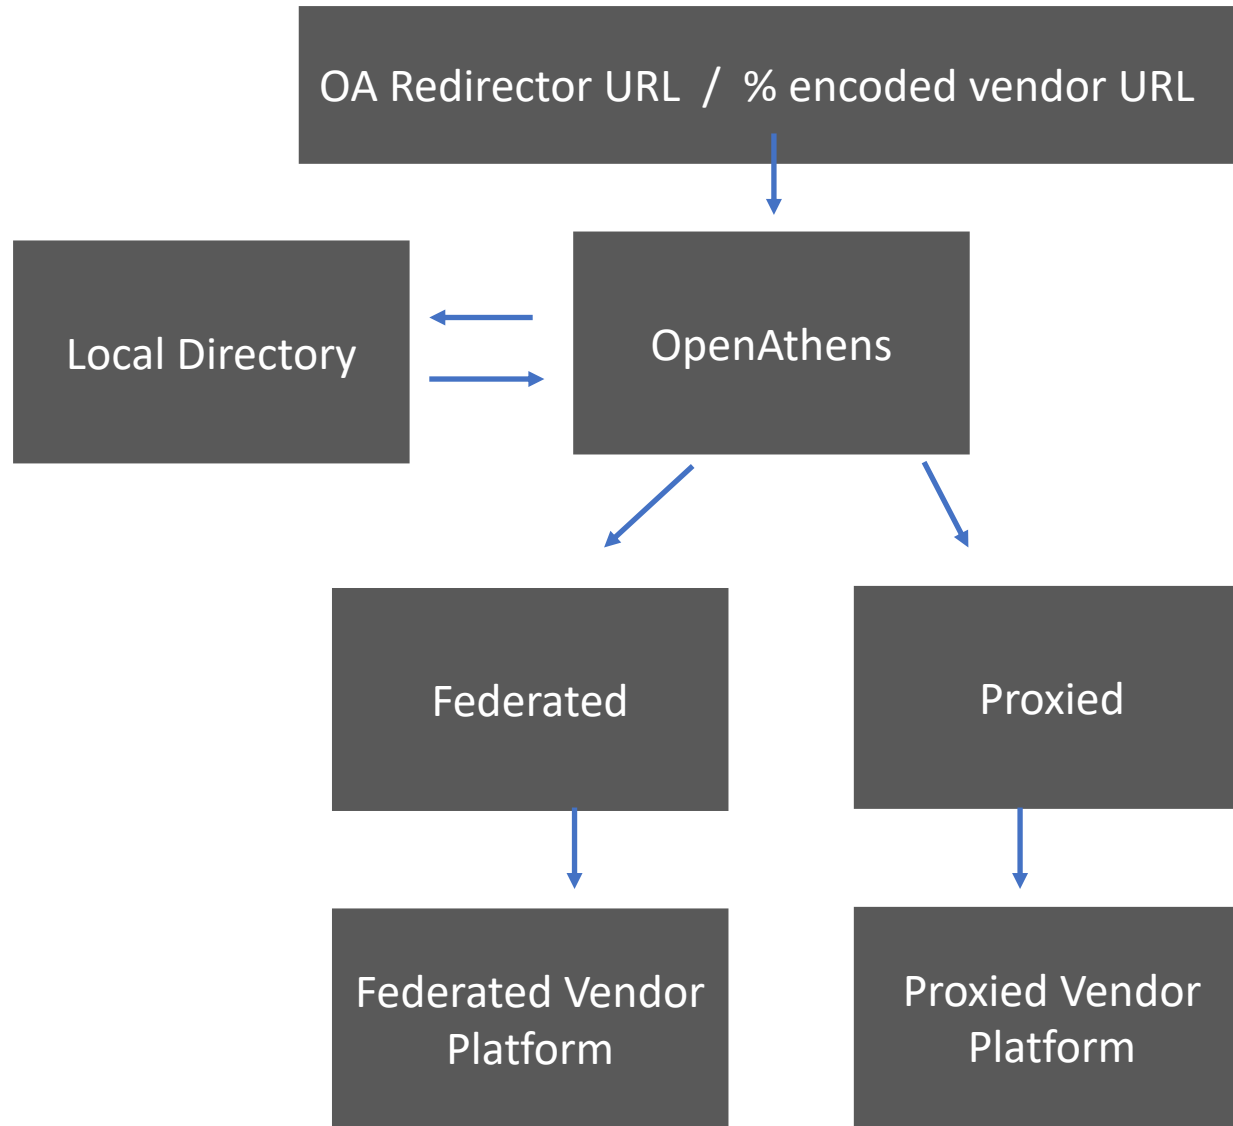

- Federated resources are all in the catalog.
- Vendors typically require your institution's Entity ID and Organization ID, but sometimes the Scope is needed
  - **OAFed Entity ID** <https://idp.kennesaw.edu/openathens>
  - **Organisation ID** 71455634
  - **Scope** kennesaw.edu
- Can allow personalization with vendors
- Allows authentication coming from the World Wide Web

# OpenAthens Redirector URL

- Redirector URL: <https://go.openathens.net/redirector/georgiasouthern.edu?url=>
- Redirects to either **Federated** or **Proxied** authentication
- Vendor URL always needs to be percent encoded
  - <https://go.openathens.net/redirector/georgiasouthern.edu?url=https%3A%2F%2Facademic.oup.com>
- Most vendors require the Redirector URL for OpenAthens authentication.
- Some vendors don't require the Redirector URL for authentication.

# Redirector URL Authentication Path

# Redirector URL Databases A-Z and Alma

- Vendor URLs used in Databases A-Z lists need the OpenAthens Redirector Link Generator. Example:  
<https://go.openathens.net/redirector/georgiasouthern.edu?url=https%3A%2F%2Facademic.oup.com>
- Databases in GALILEO's GLRI program do not need the OpenAthens Redirector URL applied to the vendor URL. Example: <https://academic.oup.com>
- GALILEO Express Links do not need the OpenAthens Redirector URL applied.
- Alma's Proxy Integration Profile is the equivalent of the OpenAthens Redirector Link Generator.

# OpenAthens Redirector URL

## Alma OpenAthens Integration Profile

Alma Configuration

< Integration Profile

### OpenAthens

Code	OpenAthens
Integration Type	Resolver Proxy
Managed in Network	No

General Information

#### PROXY DEFINITIONS

Proxy server type *	OpenAthens Redirector
Proxy url *	https://go.openathens.net/redirector/georgiasouthern.edu
Proxy ip *	5.198.136.69
Use Proxy *	Selective

- OpenAthens Redirector URL is registered in the Proxy Resolver Integration Profile in Alma's General Configuration.
- The OpenAthens "Proxy Resolver" Integration Profile is used for both Federated and Proxied resources.
- Alma uses the term "proxy" in for the OpenAthens Redirector, which is misleading.

# Managing Collections in Alma

- Do you want your collections to be discoverable at the collection level in Primo?
- NZ GALILEO Collections have been suppressed for discovery, delineating Databases AZ from the Primo Search.
- Bib records are suppressed by default when activating complete and select CZ e-collections and “databases” (no portfolio).
- Collections can be unsuppressed (i.e. discoverable) at the time of activation and post activation.

The screenshot shows the Alma Activation Wizard for Electronic Collection and Services Setup. The interface includes a top navigation bar with the Alma logo and tabs for Acquisitions, Resources, Fulfillment, Admin, and Analytics. A search bar and a list of icons are also present. The main content area is titled "Activation Wizard: Electronic Collection and Services Setup" and features a progress indicator with steps 1 and 2. The first step is active, showing details for "JSTOR Global Plants".

**JSTOR Global Plants**

Type	Database
Number of portfolios	0
Electronic Collection Level URL	http://plants.jstor.org/
Additional descriptive information	JSTOR Global Plants

**Local Electronic Collection Information**

Public name	<input type="text"/>	Library	<input type="text"/>
Level URL	<input type="text"/>	Additional descriptive information	<input type="text" value="JSTOR Global Plants"/>
Mark Bib as suppressed	<input checked="" type="checkbox"/>	Electronic Collection Proxy Enabled	<input type="radio" value="No"/> No <input type="radio" value="Yes"/> Yes
Electronic Collection Proxy Selected	<input type="text"/>

# Managing Collections in Alma Unsuppressed

- In addition to the record being unsuppressed, the collection must contain a “Level URL,” at the collection level, for the collection to display in Primo.
- Authentication should be enabled.
- Vendors, like EBSCO, ProQuest, EBC and Gale will need URLs that contain account IDs.

## Managing Collections in Alma

### Unsuppressed Post Activation

- You do have the option to unsuppress records that were suppressed at activation, but it will require a publishing job after the “Suppress from Discovery” has been deselected in the bib record.
- Contain GALILEO/GIL on this matter.

# Any Questions?
