Guiding Principles for Collaboration in a New Library Management System

Approved, RACL online meeting, June 23, 2015.

- The power of collaboration
- Reduce the duplication of work across the system and enable staff to work more efficiently
- Rethink workflows to gain efficiencies
- Look beyond the individual library for efficiencies (Take full advantage of shared systems)

Source: https://gil.usg.edu/alma/implementation_information/racl-guiding-principles

With our shared Alma environment, one or more USG institutions with full-time cataloging staff can take on the cataloging duties for institutions without dedicated catalogers.

Takes advantage of the established practices of a large and stable cataloging department (25 FT at UGA).

- Daily original cataloging
- LC PCC training
- RDA updates
- Monthly Alma updates

Staff at smaller institutions can focus on other library tasks and local services.

- Reference and instruction
- Collection development
- Library director
- Circulation
- Other duties as assigned

children and youth, by promoting healthy development and also by preventing and mitigating disorder, so that young people reach adulthood ready to thrive and contribute to society. Over the last decade, a growing body of research has significantly strengthened understanding of healthy MEB development and the factors that influence it, as well as how it can be fostered. Yet, the United States has not taken full advantage of this growing knowledge base. Ten years later, the nation still is not effectively mitigating risks for poor MEB health outcomes; these risks remain prevalent, and available data show no significant reductions in their prevalence. Fostering Healthy Mental, Emotional, and Behavioral Development in Children and Youth: A National Agenda examines the gap between current research and achievable national goals for the next ten years. This report identifies the complexities of childhood influences and highlights the need for a tailored approach when implementing new policies and practices. This report provides a framework for a cohesive, multidisciplinary national approach to improving MEB health"--Publisher's description.

Why do we track these actions in particular?

- One of the two actions is somewhat less work. Maybe...
- Keeping track of these actions over time could potentially also tell us some things about how we are using the NZ and how we are using OCLC within the scope of this project.

A few other
things...

490	1		Military, war, and society in modern American history
520			"In this compelling evaluation of Cold War popular culture, Pulp Vietnam explores how men's adventure magazines helped shape the attitudes of young, workingclass Americans, the same men who fought and served in the long and bitter war in Vietnam. The "macho pulps" - boasting titles like Man's Conquest, Battle Cry, and Adventure Life - portrayed men courageously defeating their enemies in battle, while women were reduced to sexual objects, either trivialized as erotic trophies or depicted as sexualized villains using their bodies to prey on unsuspecting, innocent men. The result was the crafting and dissemination of a particular version of martial masculinity that helped establish GIs' expectations and perceptions of war in Vietnam"-- ‡c Provided by publisher.

2018 totals

Background work on the project began in 2018, but the only items cataloged that year were 5 items from our first partner, Abraham Baldwin Agricultural College, in December. This small batch of test-run items let us try out the system we had envisioned and see how everything worked. In 2019, the project really got off the ground.

Benefits for ABAC

- Better expertise in cataloging
 - ABAC has no dedicated cataloger; current librarian mostly self-taught in cataloging
 - UGA brings professional cataloging
- Better use of time
 - With cataloging taken care of, librarian(s) can focus on other areas of library service
- Improves relationships between colleges
 - Provides opportunities for further collaboration

Withdrawal & Clean-up Project

- In 2020, ABAC withdrew 40,000 items from its collection
 - Due to move into renovated library with smaller stacks
 - Allowed removal of out of date and damaged items
- ABAC librarians had limited experience with handling withdrawn record clean-up with OCLC
- Due to cataloging project, pre-existing relationship with UGA made seeking out assistance even easier
